- H Five open decisions
- I Do not get this wrong

A Business & legal identity

The canonical business, GST and trademark record. Everything here matches both Aradhana's own supplied master data and independent public records unless flagged otherwise.

Canonical business record §2

● Locked

● Publicly corroborated

LEGAL / TRADE NAME	Shree Aradhana Jewellers
CUSTOMER-FACING NAME	Aradhana Jewellers
CONSTITUTION	Proprietorship
PROPRIETOR	Kesharsingh Rajpurohit Kesharsingh Gumansingh Rajpurohit on public trademark record
GSTIN	27ACVPR5719A1Z9
PAN	ACVPR5719A
GST REGISTRATION	Regular · registered 1 July 2017 · Retail & Wholesale Business, Maharashtra
PRIMARY CATEGORY	Jewellery Store — Gold & Silver Jewellery

The KYC master and the public GST lookup independently agree on every field above — this is the strongest-verified section in the whole record.

Trademark / IP §13

MARK	APP. NO.	FILED	CLASS	STATUS
Shree Aradhana Jewellers Boisar (Device of Om)	2599260	19 Sep 2013	35	● Registered · valid to 2033
Aradhana Jewellers	6492551	22 Jun 2024	14	● Filed — status unverified

DO NOT LABEL AS REGISTERED

The Class 14 filing (6492551) has no verified current registration certificate in this audit. Never state it is "Registered."

Hallmark / BIS §14

Historical BIS record: CML No. **7672589**, validity shown 19 Nov 2023 — an **old** record, not proof of current 2026 status.

VERIFY BEFORE USE

Do not present CML 7672589 as a current certificate number without checking the live BIS record. The business consistently markets 916 / hallmarked jewellery, which is safe to state generally.

Ownership §12

Internal master: **Kesharsingh Rajpurohit — Proprietor**. Public trademark record: **Kesharsingh Gumansingh Rajpurohit**, trading as M/s Shree Aradhana Jewellers. For any legal declaration requiring a complete statutory name, the PAN/GST/legal document is the final authority.

B Location, contact & channels

One primary number, one primary email, one primary address — everything else is either an internal line or needs a decision before it reaches the app.

Store address §3

RECOMMENDED APP ADDRESS

Shree Aradhana Jewellers
Shop No. 48, Ostwal Empire, Arihant Market, Tarapur Road, Boisar, Palghar,
Maharashtra 401501, India

Historical trademark records use "Boisar (W), Thane 401501" — an old administrative boundary. Customer-facing material should use **Palghar, Maharashtra**.

[Official Google Business Profile →](#)

Phone & WhatsApp hierarchy §4–5

NUMBER	ROLE	APP ACTION
+91 94226 82086	Primary mobile <i>and</i> WhatsApp Business — matches Google listing	● Use everywhere
89833 66647	Current Facebook page contact; also appears on a business-paid line	● Verify role first

80078 51001	Kesharsingh Rajpurohit's business correspondence line	● Internal / proprietor
77099 96558	Kuldeep Rajpurohit's business correspondence line	● Internal unless designated
02525-266072 / 267359	Historical / public landlines	● Verify active
82963 04440	Justdial listing — may be tracking/routing number	● Do not hard-code
98602 42656	Old AskLaila listing	● Legacy — do not use
92264 31917	Historical BIS listing	● Legacy — do not use

Recommended hierarchy: **Customer care / WhatsApp** → 94226 82086 only.
Secondary telephone → leave empty until Aradhana deliberately selects one.
Owner/internal contacts must never auto-display to customers.

Email & domain §6

OFFICIAL EMAIL

info@aradhanajewellers.com

● Use everywhere

DOMAIN STATUS

Google Workspace active. A live production website has **not** been independently verified — don't add a "Visit our website" button yet.

LEGACY EMAIL

shreearadhana1001@gmail.com — genuine but must not be customer-facing primary

INTERNAL-ONLY MAILBOX

bankalerts@aradhanajewellers.com — payment/audit workflow; never expose publicly

Instagram §7

Official handle:

[@aradhanajewellers.boisar](#) — explicitly supplied and

Facebook §8

Current page: [Aradhana Jewellers Boisar](#). An older "www.aradhan1001" identity is legacy — don't reuse it.

independently confirmed. Safe for the Instagram icon, social feed, Reels CTA, "Follow us."

Google Business Profile & hours §9-10

Current local data: rating **4.9** from roughly **387 reviews** — do not hard-code, pull dynamically or manage via CMS.

CONFLICT — STORE TIMINGS

Google shows Mon 11 AM–9 PM, Tue–Sun 10 AM–9 PM. Justdial shows Mon–Sun 10 AM–8 PM. **Verify the real seven-day hours with the store** and keep timings CMS/admin-editable, never compiled into the APK.

c Brand system

Two documented colour eras, three "since" years, and a registered Om device mark — the visual identity needs one final lock before production theming.

Colour §17

Current working blue — used repeatedly in recent creative briefs:

#23519D

Earlier permanent documented system:

#003E7E · Royal Blue #D4AF37 · Luxury Gold #041A4D · Deep Navy #F0C75E · Gold Highlight

#FFFFFF · White

Plus a third reference: **Aradhana Blue + Gold + Ivory** from KYC work.
Implementation should use central design tokens (`brandPrimary` , `brandGold` , `brandNavy` , `brandIvory`) — never scattered hex values. **#23519D vs #003E7E must be locked before final theming.**

Logo & tagline §18-19

The brand uses the Shree Aradhana Jewellers **Om-based identity** (a registered "Device of Om" mark). As of 18 Aug 2026 the app team still needed: logo icon `PNG 1024×1024 transparent` and `JPG 1024×1024` , delivered from the actual approved master — not redrawn from screenshots.

Legacy directory tagline — *"New Designed 91.6 Hallmark Fancy Gold Ornaments — House of Traditional Trust"* — is not automatically the current app tagline.
Recurring internal brand phrases: Purity · Trust · Transparency · Legacy · Trusted by generations. Only the final approved line goes on the splash screen.

Establishment year §15

Three genuinely different records exist and must not be merged:

YEAR	SOURCE	WHAT IT ACTUALLY REPRESENTS
1992	Aradhana's explicit KYC/master answer	"Trusted Since 1992" — strongest direct answer
1995	Later brand material, used heavily	Possibly a re-brand or marketing convention
2003	Trademark "used since" record (08 Jan / 30 Sep)	Trademark first-use date — not the same concept as founding

Keep the "Since" string CMS-configurable until Aradhana formally locks one customer-facing year.

Name usage rules §16

LEGAL / FORMAL

SHREE ARADHANA JEWELLERS — GST, invoices, Terms, Privacy, KYC

CONSUMER BRAND

Aradhana Jewellers — shorter UI label

LOCATION DESCRIPTOR

Aradhana Jewellers, Boisar — locator, social, SEO, notifications

Never substitute unrelated variants like "Aradhana Jewellery" — many unrelated businesses share the Aradhana name online.

D Catalogue & operations

What the business actually sells and services, and the customer data model already designed around it.

Product scope §20

Gold and silver jewellery across purities **18K** and **22K**. Working catalogue categories include:

Baby Bracelet · Baby Kadli · Baby Ring · Baju Bandh · Bali · Bangle · Chain · Dull · Earrings · Fancy Mala · Gents Bracelet · Gents Kada · Gents Ring · Haar Chain · Jhumka · Kaan Chain · Ladies Bracelet · Ladies Kada · Ladies Ring · Locket · Mangota · Moti Nath · Mangalsutra / MS Long · Short Mangalsutra · Nath · Necklace · Necklace Set

Catalogue architecture should not assume every item shares the same purity, wearer, type, image layout, or image count — these stay structured fields, not conventions baked into templates.

Capabilities & repair policy §21–23

Existing workflows already cover: customer registration, billing, delivery, exchange, repair, warranty, valuation, audit, regulatory compliance, customer service, relationship management.

OPERATIONAL POLICY, NOT MARKETING COPY

The repair form defines real terms — receipt required for collection, possible weight differences after cleaning/repair, approximate initial quotes, collection window, 22K/916 rate treatment. Use the exact final approved Marathi/English legal wording in-app, not a paraphrase.

KYC / customer data model §22

Personal

Customer ID · Name · Father/Husband · Mobile · WhatsApp · Email · DOB · Anniversary

Segmentation

Bridal · Gold · Silver · Investment

Identification

PAN · Aadhaar · Passport · Driving Licence · Voter ID

Internal controls

PAN verified · Mobile verified · KYC complete · Ornate ID · Verified By

SENSITIVE DATA WARNING

PAN/Aadhaar/KYC documents must never sit in a casual marketing/profile database. Any in-app collection needs explicit privacy, retention and access-control design.

Marketing claims & expired campaigns §24–25

Genuine claims in use: 916/hallmarked jewellery, 100% Exchange Value, transparent pricing/billing, and campaign-specific gold insurance. None should become a permanent hard-coded promise — route through a CMS-backed policy/offer system with real eligibility terms.

The Price Guarantee campaign (booking 20 Jul – 18 Aug 2026, delivery within 365 days) has already ended as of this handover and must not appear as active unless formally extended — the reason all promotions belong in dated CMS records, not compiled code.

Catalogue photography standard §31

Design fidelity is critical — jewellery is never generatively redesigned. Clean white/floating background, centred product, consistent margins, pairs stay pairs, multiple angles, product/category-driven naming. This should drive e-commerce image ingestion, not just the photo shoot.

E App build & vendor

Who's building it, what they're still waiting on, and how payments plug in.

Vendor & pending checklist §26–27, §44

Project: **Suvarna Setu / Ornate**, correspondence via support@suvarnasetu.com.
Per the 18 Aug 2026 status email, the vendor is waiting on:

1. Logo icon — PNG 1024×1024, transparent
2. Logo icon — JPG 1024×1024
3. Scheme compliance / policy documentation

4. Gift Card compliance / policy documentation
5. PayU agreement and documentation
6. Banner creatives
7. Catalogue images / e-commerce content
8. SMS templates
9. SMS API documentation
10. Short description — max 80 characters
11. Long description — max 4,000 characters

Treat this as the live onboarding checklist unless the vendor sends a newer revision.

Payments & SMS/OTP §28–29

Current intended payment path: **PayU**. SMS templates and API docs are also pending.

NO SECRETS IN THIS HANDOVER

No merchant IDs, API keys, salts, bank accounts, UPI IDs, sender IDs, DLT credentials, or OTP secrets are included here — and none should be inserted as placeholders that might reach production by accident. Transmit secrets through a separate secure channel.

Existing Ornate ecosystem §30

Aradhana already runs Ornate Buddy for catalogue presentation, Ornate customer IDs in internal KYC, and existing catalogue/stock workflows. **The new app should not create a second disconnected identity** for customers, products, stock, schemes, or transactions where Ornate already owns the source data.

F Data governance for developers

What can safely live in the compiled app, what belongs in a CMS, and what must never touch client-side code.

Safe to hard-code §37

- Shree Aradhana Jewellers / Proprietorship
- GSTIN 27ACVPR5719A1Z9
- Shop No. 48, Ostwal Empire, Arihant Market, Boisar, Maharashtra 401501
- Phone / WhatsApp 94226 82086
- info@aradhanajewellers.com
- @aradhanajewellers.boisar
- Official Google Business link

Even these should ideally be server-configurable so a future change doesn't require an APK update.

CMS / admin only §38

- Store timings, gold/silver rates
- Banners, offers, schemes, gift cards
- "Since" tagline, review counts, rating
- Product catalogue, pricing, making charges, stock
- Terms, repair & scheme policy
- Secondary phone, WhatsApp templates, notifications, homepage message

Never in client-side config §39

PayU merchant secrets · API secrets · SMS API keys · OTP secrets · Google Workspace credentials · email passwords · bank credentials · internal auditor credentials · customer Aadhaar data · unrestricted PAN/KYC documents · staff passwords · signing keys · Firebase/service-account private keys.

Source of truth & conflict hierarchy §41-42

When records disagree, resolve in this order:

1. Current statutory certificate / government record
2. Direct instruction from Shree Aradhana Jewellers
3. Current internal master / KYC
4. Current Google Business Profile controlled by Aradhana
5. Official Aradhana social account
6. Vendor / app correspondence
7. Trademark database
8. Third-party directories
9. Old advertisements
10. Search-engine snippets

A Justdial, AskLaila or HelloIndia number must never override an explicitly supplied Aradhana number just because it appears online.

G Directory audit & reviews

What public listings get right, what they get wrong, and why it matters beyond the app.

Public directory audit §32

SOURCE	FINDING
Google	● Correct Shop No. 48, primary phone 94226 82086
YellowPagesDial	● Correct Shop No. 48 and phone, plus historical landlines/Gmail
Magicpin	● Correct Shop No. 48
Trademark records	● Consistent Shop No. 48, proprietor identity
Justdial	● Stale Contact 82963 04440, hours 10 AM–8 PM, "16 years in business" — none align with the master record

HelloIndia

● **Wrong**

Shows Shop No. 47, "Parasul Empire," number 80078 51001

AskLaila

● **Legacy**

Old number 98602 42656

These stale records can contaminate Google/AI search results, customer directions, business knowledge graphs, voice assistants, and app-store entity verification — worth correcting independently of the app build.

Review positioning §33

Public reviews commonly praise selection/design range, customer service, knowledgeable staff, and repair/resizing service. A negative historical review also exists — **never** state "100% positive reviews" or any similarly absolute claim. Justdial and Google both show strong aggregate ratings, but treat them as dynamic, not hard-coded, values.

H Five open decisions

The only major conflicts in the entire record. Everything else below is settled — these five need one authoritative call from Aradhana before production.

Decide before you ship

Each of these has genuine, real evidence on more than one side. Don't let a developer pick — get Aradhana's explicit answer.

01

Public "Since" year

Founding year vs. trademark-use date are different concepts and shouldn't be merged.

1992 – KYC master

1995 – recent brand material

2003 – trademark first-use

02

Primary brand blue

Current creative workflow vs. the earlier documented permanent system.

#23519D – current working blue

#003E7E – documented permanent royal blue

03

Store timings

Google and Justdial give two different seven-day schedules — verify the real hours directly with the store.

04

Secondary public telephone

Facebook shows 89833 66647 alongside the primary 94226 82086. Decide its actual role — customer care, store line, marketing, or internal — before exposing it in the app.

05

Website

aradhanajewellers.com is a confirmed active Workspace email domain, but no live public website has been verified. Don't add a website button until a real destination is confirmed.

Do not get this wrong

- Business is **SHREE ARADHANA JEWELLERS**, in **Boisar**
- Correct shop is **No. 48**, in **Ostwal Empire, Arihant Market** — PIN **401501**
- GSTIN is **27ACVPR5719A1Z9**
- Official email is **info@aradhanajewellers.com**
- Primary phone and WhatsApp are both **+91 94226 82086**
- Instagram is **@aradhanajewellers.boisar**
- Business type is a **Proprietorship**
- Do **not** use Shop No. 47
- Do **not** treat 82963 04440 as the primary number
- Do **not** use 98602 42656 as the primary number
- Do **not** hard-code store timings yet
- Do **not** hard-code 1992 or 1995 until the brand-year decision is locked
- Do **not** call the Class 14 trademark "registered" without verification
- Do **not** present BIS CML 7672589 as a current 2026 certificate
- Do **not** claim aradhanajewellers.com is a live public website — only the Workspace domain is confirmed
- Do **not** place payment, SMS, or API secrets anywhere in the app package
